PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 8+ months of professional experience building and shipping enterprise-grade web applications using React.js, Node.js, Firebase, and MongoDB in Agile environments. Proven track record — 20% API latency reduction, 30% onboarding improvement — across ERP, edtech, and e-commerce projects. AWS Cloud Foundations certified, IBM DevOps certified, MCA graduate (FISAT Kerala, May 2026).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript (Basics), Python, SQL, PHP
Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap 5, Responsive Design, Semantic HTML
Backend: Node.js, Express.js, Flask, RESTful API Design & Integration
Databases: Firebase, Firestore (NoSQL), MongoDB, MySQL, Data Modelling, Query Optimization
Cloud/DevOps: AWS (EC2, S3, Lambda, RDS), Docker (Basics), CI/CD, DevOps Fundamentals
AI/ML: Scikit-learn, Pandas, Regression Modelling, Demand Forecasting
UI/UX & Design: Figma (Wireframing, Prototyping, Design Systems), Mobile-First Design
Mobile: Flutter (Basics), Mobile UI/UX, App Testing
Tools: Git, GitHub, Postman, VS Code, Agile/Scrum, Sprint Planning, SDLC
Testing: Unit, Integration, End-to-End, Functional & Regression Testing

PROFESSIONAL EXPERIENCE

Software Developer Trainee | Kenmerk Softwares Pvt Ltd

Apr 2026 – Present

- Design and develop full-stack web applications using React.js, Node.js, Express.js, Firebase, and Firestore in 2-week Agile sprint cycles
- Achieved 20% reduction in API response latency through performance optimization, code refactoring, and scalability improvements
- Create responsive, interactive UIs using Figma and Stitch, maintaining 95%+ design-to-code fidelity across web and mobile platforms
- Gained hands-on exposure to Flutter for mobile app development, contributing to UI screens and app testing
- Conduct unit, integration, and end-to-end testing; collaborate with product managers, QA engineers, and designers for on-time delivery

Software Developer Intern | Kenmerk Softwares Pvt Ltd

Dec 2025 – Mar 2026

- Developed and maintained production-ready features using React.js, Node.js, Express.js, Firebase, and Firestore
- Worked on 6+ client projects: ERP system development, online education platform redesign, carpooling application MVP, and e-commerce website with dynamic pricing
- Improved UI/UX leading to 30% reduction in user onboarding time through iterative design and usability testing
- Executed functional and regression testing, bug identification, and validation to maintain application reliability
- Assisted in Flutter mobile app development — contributed to UI screens and participated in app testing workflows

KEY PROJECTS

AI-Powered Inventory Management & Demand Forecasting System

Stack: React, Flask, Python, Scikit-learn, Pandas, Firebase, REST API

- Developed a full-stack inventory management application with AI-powered demand forecasting to optimize stock levels and reduce inventory shortages
- Built a responsive React dashboard featuring real-time inventory tracking, product management, multi-store support, and smart low-stock alerts
- Developed Flask REST APIs for inventory operations and machine learning predictions
- Trained and integrated a Scikit-learn regression model using historical sales data, seasonal trends, and date-based features for demand forecasting
- Implemented Firebase integration for authentication and data management with a responsive dark/light themed user interface

BookCycle — Circular Economy Platform

Aug – Oct 2025

Stack: *React.js, Next.js, Node.js, Express.js, Firebase, Firestore, Figma*

- Architected full-stack MERN platform for sustainable book circulation supporting 100+ concurrent users (SDG 4 & 12)
- Implemented Firebase Auth with role-based access (user, admin, moderator) and real-time Firestore data sync achieving sub-second refresh
- Achieved 95% design-to-code accuracy; deployed on scalable cloud infrastructure with responsive layouts for mobile, tablet, and desktop

PAW — Pet Service & Shopping Platform

Stack: *React.js, JavaScript, Firebase, Firestore, MySQL, Figma*

- Developed responsive e-commerce platform with 500+ product catalog, grooming booking, and complete CRUD operations
- Designed intuitive UI/UX in Figma; implemented dual-database architecture (Firebase + MySQL) for data integrity and fast queries

EDUCATION

Master of Computer Applications (MCA) | FISAT – Federal Institute of Science And Technology2024 – May 2026
DBMS, DSA, Software Engineering, Computer Networks

Bachelor of Science (B.Sc) in Computer Science | LISSAH College, Calicut University2021 – 2024
CGPA: 6.1 / 10

CERTIFICATIONS

- DevOps Fundamentals — IBM Developer Skills Network / Etrain Education (Mar 2026)
- AWS Academy Graduate — Cloud Foundations — Amazon Web Services / NSDC (2025)
- Certified Cloud Security Associate (CCSA) — Red Team Hacker Academy (2023)
- IBM watsonx.ai Technical Essentials — IBM (2024)
- Introduction to Intelligent Virtual Agents (IVAs) — IBM watsonx Assistant (2024)

KEY ACHIEVEMENTS

- Delivered 6+ client projects within scope and timeline using Agile methodology in a fast-paced startup environment
- Achieved 20% reduction in API response latency through systematic performance optimization and code refactoring
- Maintained 95%+ code quality standards through rigorous testing protocols and peer code reviews
- Earned 4 professional certifications across cloud computing, DevOps, and AI — demonstrating continuous learning
- Collaborated with cross-functional teams of 5–8 members; contributed to 30% improvement in user onboarding experience

CORE COMPETENCIES

Problem-Solving • Critical Thinking • Teamwork & Collaboration • Effective Communication • Adaptability • Time Management • Client-Focused Approach • Attention to Detail • Self-Motivated Learning • Technical Documentation
